The Torres family , owners of the world class winemaker Bodegas Torres , asked BC Estudio Architects to create a distinctive environment to put in value the gran Reserva wine Mas La Plana one of the historic wines of the company, whose grapes are harvested in the vineyard of the same name. The new space would be located within an existing winery.

Each of the barrels will be lighted up with a special fixture .In the center of the room a sculptural hanging lamp glass would be located recreating the relation between earth and sky.
