

PRIVATE VILLA IN CANNES

PROJECT: PRIVATE VILLA IN CANNES

LOCATION: VALLAURIS . CANNES . FRANCE

YEAR: under construction

Located in the hills among Cannes and Antibes, enjoys splendid views of the Gulf of San Juan and its marina. In a steep slope land, from the main entrance road on the top, only the roofs of the villa are visualized. The building, almost like a waterfall, is deployed on three levels down. The entrance, the interior road and the esplanade in front of the main door, are treated with elegance in the choice of pavements and vegetation, enhancing the Villa.

An important area of circulation, with a circular staircase and a glazed lift, connects the three floors vertically. Downward, they are located on the first level, the family bedrooms; on the second the living-dining-kitchen areas, and on the third the guest rooms, the gym and spa. The parking, storages, service and technical rooms are placed at the back of two of the floor plans.

The materials used, are the typical of the Provençal architecture, roof with tiles and plasters in pastel colors.

Completing the Villa, there are large terraces, an infinity pool, terraced gardens, fountains and trails in the middle of exuberant vegetation given the mild climate of the region.
